ESTABLISHED GLASS & GLAZING OPERATION
The business services a broad range of customers across the residential and commercial markets, providing glass repairs, replacement, installation and associated glazing services.

Its diversified service offering helps reduce reliance on any single customer type or market segment and provides multiple sources of ongoing work.

Emergency glass repair services provide an additional source of demand, while the commercial and residential divisions support a steady flow of project and maintenance work.

ROCKHAMPTON & CENTRAL QUEENSLAND MARKET
Based in Rockhampton, the business is strategically positioned to service customers throughout Central Queensland.

The established operating footprint, workshop facilities, vehicles and experienced team allow the business to service a wide geographic area while maintaining efficient operations and customer responsiveness.

For an existing glass, glazing, building services or trade business, the acquisition could provide an immediate platform for expansion into Rockhampton and the wider Central Queensland market.

EXPERIENCED TEAM & INFRASTRUCTURE
A key strength of the business is the operational infrastructure already in place.

Experienced staff support the delivery of services and customer relationships, while the fully equipped workshop and vehicles provide the physical capability required to operate and grow the business.

This provides an incoming purchaser with the opportunity to acquire a functioning operation rather than having to establish staff, equipment, facilities and market presence from the ground up.
